

AIEE- QP Issue 2 Rev 0

## **QUALITY POLICY**

We, at Advanced International Electronic Equipment Company are specialized in Sales, Installation, Commissioning, Maintenance and Warranty Support of Two-Way Radio Telecommunications Equipment.

It is the Intent of AIEE to provide Communications Support services of the highest quality, which are responsive to the needs of our customers. In these activities, AIEE will pursue goals aimed at the achievement of quality excellence. These results will be derived from the dedicated efforts of each associate in an environment, which is participative, co-operative, creative and receptive to new ideas as we collectively strive to achieve our fundamental objective of Total Customer Satisfaction.

We are committed to our customers to ensure high quality products and services and timely delivery, every time.

We also continuously identify all major external and internal issues, risks and opportunities related to the Quality Management System and take steps to mitigate these issues & risks.

We are dedicated to ensure that all employees are competent and appropriately trained to provide the desired output expected out of them in order to improve operational efficiency and achieve customer satisfaction.

We are dedicated to comply with and continually improve the Quality Management System by improving our products and services with the active involvement of all our employees.

We are also striving for continual improvement in effectiveness of the established Quality Management System by setting and reviewing the Quality Objectives for all key functions.

We are also committed to adhere to all relevant statutes and regulations.

***QUALITY IS NOT JUST CONSIDERED ANOTHER RESPONSIBILITY AT AIEE,  
IT IS A PASSION***
